

The Recent Summit at Sharm-al-Shaikh

- Allah says in the Quran: "You will find the most severest in hatred amongst mankind to the believers the jews and the mushrik"
- No one amongst mankind knows the jews better (by the benefit of the Quran), than the muslim ummah
- Muhammad (saw) said in a hadith: "The killing of a single muslim in the eyes of Allah (swt) is worse than the destruction of the whole Earth" (Bukhari and Muslim)
- My dear brothers, look at the recent events of the past few days in Palestine, and how the muslims are being butchered by the Israelis. How they are firing anti-tank rockets at unarmed youth
- Recently, look at how they are doing much worse than this by dealing with a muslim youth of 15 years of age by blowing him up using a helicopter gunship! Even the kafir journalist on CNN who was interviewing said asked the question that: "Isn't this rather an excessive use of force used to control crowds of unarmed youth?"
- The killing of a single muslim in eyes of Allah (swt) is worse than the destruction of the whole Earth!
- Essam Muhammad a father aged 40, was walking his 5 children home to Ramallah when he was stopped by armed Israeli soldiers. They burnt out his eyes with cigarettes and smashed his skull. He was so badly beaten, that when his brother identified his dead body, he said it was the size of a massive balloon
- The killing of a single muslim in eyes of Allah (swt) is worse than the destruction of the whole Earth!
- Mustapha Ahmed a farmer aged 47, was kidnapped while picking olives. He was seized at gunpoint with an Uzi sub-machine gun and taken to the Israeli area. There he was beaten to death with clubs and axes and then his body was set on fire.
- The killing of a single muslim in eyes of Allah (swt) is worse than the destruction of the whole Earth!
- My dear brothers, these killings should not shock any of us or surprise any of us. The killing of a total of 120 muslims in Palestine so far by the Israelis or the killing of 55 muslims during the Fajr prayer in Al-Khalil is actually something minor for these type of people.
- Remember how Allah (swt) informs us in the Quran that they have killed 300 prophets sent to them: "They kill the prophets!"
- Remember they were shown 9 signs with Musa (as) that Allah (swt) is aiding them by destroying Firawn and rescuing them. How Allah (swt) sent the frogs, plagues, diseases, locusts, to deliver them from the oppression of Firawn.
- Having witnessed all of these signs of Allah (swt) they still after this started to worship the cow in Musa's (as) absence. And when Musa (as) returned, they accused him of having a sexual disease.
- Look at how they treated Yahyah (as) and Zakariyah (as), the prophets sent by Allah with signs, by sawing them in two
- Look how even Allah (swt) didn't even escape their treachery when they said about Allah (swt) that: "He needs us we don't need him" and "The hands of Allah are tied"
- My dear brothers, if they treated those prophets like this then how do you think they will treat the muslims?
- How can we read such verses in the Quran that Allah (swt) sent to guide us, only to make peace with them?
- Indeed, we can perfectly understand and comprehend the verse of the Quran when Allah (swt) says: "Oh you who believe, do not ally (or find protection) with the jews or the christians, for they are allies (and protectors) of one another. Anyone amongst you who takes them as allies (or protectors), is indeed one of them" (5:51)
- Allah (swt) speaks the Truth, and this is what Allah (swt) has decreed
- How is it then after this that we find our leaders keen to attend the summit at Sharm-al-Shaikh with the Israelis and the Crusaders to decide the outcome of Palestine and the future of the muslims
- Look how Arafat and Mubarak are leading you to certain humiliation by defying this qata'ee verse, by attending this summit after being summoned by Clinton
- They are not only exposing us to the jews but also to the christian crusaders, Clinton was descended from and has the same blood as those crusaders who occupied Al-Aqsa masjid for 200 years
- Look how perfectly Allah (swt) warned us in this verse
- Look at the history of these crusaders. Look at how Tancred the first crusader king when he entered Al-Aqsa. When he entered on yawm-il-jummu'ah how he garrisoned 70 000 muslims and after saying that he would let them go, slaughtered each and every one of them
- Look how the crusader wrote back to his mother saying that: "Today my mother is the best day of my life, because in this city of Jerusalem the blood of these muslims is flowing up to our knees"
- Look at how Radolph of Caine, the crusader on his way to Palestine said how they used to boil alive the muslim children in pots and eat them
- Look even as recently as 1917, when the British General Allenby entered Al-Aqsa and declared: "Now finally the crusades are over"
- My dear brothers, why is this summit being organised upon the eager request of the US?
- What is this summit about, and what has it got to do with the muslims in Palestine. How will it save the Al-Aqsa masjid, and the whole of Palestine?
- This summit was none of this. It is the realisation of US plans in this region. It signifies the realisation of US political objectives for Palestine, the land which is blessed, and the land which belongs to the muslim ummah
- Look how recently Hizb-ut-Tahrir issued a political view in the leaflet that was distributed all over the muslim world entitled: "Arafat and his cronies connive to spill the blood of Palestinians in order to implement the concessions and agreements"
- Isn't it in this leaflet we exposed the horrible plan of the US against the muslims, and making the muslims aware of the trap that she is blindly going into, and exposing to her the real face of Arafat, Mubarak, and the rest of the leaders who plan with the jews and christian crusaders against this great ummah
- Look how it is so clear that what the Hizb had said in the leaflet is materializing exactly word for word at the summit

- Look how we said that the recent confrontations in Palestine were designed to come about, as part of a horrible plan between the US, Barak and Arafat, against this ummah, which was decided after the Camp David meeting
- We said that these confrontations were announced 2 weeks before they actually took place by Abu Mazin Arafat's assistant when he said: "For the points of Camp David to realized cannot be without some kind of limited war that takes place in Palestine and even extends beyond the borders of Palestine"
- Camp David revealed certain obstacles in the way of implementing it US designed plans. These obstacles were on the jewish side and on the muslim side
- The Hizb noted the obstacle to realizing the Camp David points on the side of the muslims was that the muslims were not going to let Arafat or anyone else give up Al-Aqsa to the jews without a fight. Also, the unanimous displeasure and hatred at the land the Israelis are prepared to give along with the conditions the jews are putting over them. Furthermore, how the muslims had started to lose confidence in Arafat
- As for the obstacles on the part of the jews, they are not willing to give anything to the muslims. They do not want to give them any of Al-Aqsa, nor their own autonomy, and neither a Palestinian State
- This was highlighted in the Camp David meeting, and the one who does not follow the political events was unaware of the fact that the US moved immediately to execute measures to treat these obstacles. The one who is oblivious did not and could not see the mobilisation of the loyal US agent Mubarak and neither could he see the flurry of diplomatic activity headed by Madeline Albright behind the scenes
- The US plan to remove the obstacles as stated by the leaflet would be to co-ordinate activities and events that would address the muslim resistance to Arafat's concessions on one hand, and to pressurise the jews of Israel to make their concessions on the other hand
- So Arafat moved upon the incident of Ariel Sharon's heavily guarded visit to Al-Aqsa masjid. Arafat, responded to this event by stirring the muslims to fight, and to aid this he released 'terrorist' heads from prison to add fuel to the fire. Did Arafat and his intelligence not know of the consequences of such a visit? Additionally, were the jews also unaware of the likely effects of Sharon's visit? Of course not, that's why Sharon only dared set one foot on Al-Aqsa unless he was guarded by hundreds of personnel armed to the teeth, and only while knowing that the muslims were unarmed
- This deliberate provocation was designed to trigger the clashes that we have witnessed over the last couple of weeks, and that Abu Mazin alluded to after his Camp David meeting
- The US plan with regards to the muslims was to subdue and to direct their ambitions not to the liberation of Al-Aqsa, or the defiance of Israeli concessions, but to make the muslims realize that realistically they should go for what they can after they have committed the dearest of their resources and spilled much of their blood, and launching themselves unarmed against helicopter gunships and smashing their heads against the thick armour plating of the Israeli Merkava tanks.
- This being directed by Arafat, making him seem as if he is accompanying them to the battlefield, and raising the banner of jihad against the jewish occupiers thus raising his status in the eyes of muslims, and lifting all blame and anger towards him
- As for the removal of the obstacles on the part of the jews, these confrontations were encouraged under the direction of the US and its coincidentally blind-eyed CIA, so the jews could witness for themselves the willingness of the muslims to struggle against all odds until the last man
- This would force the jews to realize the unrealistic nature of their ambitions since muslims in Palestine and all over the world would never rest against them
- Look at the design of this. Look at who is paying the price for this. Look at Arafat, how horrible and evil is his treachery in taking the side of snakes and the enemies of Allah (swt)
- To prove the correctness of the analysis of the Hizb let us look now to the outcome of the Sharm-al-Shaikh summit
- We would expect to find that anything that comes out of this summit in the light of this, would not be in favour of the muslims in any way, but would be towards the US designs
- Indeed, it saddens the heart to find that this is exactly the case, that what the Hizb wrote about is exactly materializing
- Look at the agreements achieved at the summit that were announced by Clinton
- He stated the agreements, the two most important of which are: "Firstly, both sides have agreed to unequivocally called for an end of violence"
- This is towards what we stated as culmination of the confrontation to give both sides the chance to lick their wounds and assess the situation. This is proof that this confrontation was contained by the US after demonstrating to both sides the 'unrealistic' nature of their demands
- Secondly: "That the two sides (Arafat and Barak), have come to agree decisively that there must be a pathway back to negotiations and the resumption of efforts to reach a permanent status agreement based on the UN Security Council Resolutions 242 and 338"
- Look how this is towards what we stated, that after the expenditure of resources on the part of muslims, and, the observance of the bravery and unparalleled perseverance, by the jews of the issues will be thrust back to the negotiating table. This time with the muslims and the jews less likely to be as stubborn in concessions it is hoped.
- Look at the specific UN Resolutions called to implement after the recent clashes. Resolution 242 is regarding the withdrawal of the Israeli army from occupied territories and the right of Palestinian independence. This is aimed to remove the obstacle on the part of the jews who did not wish to allow any such concessions.
- Resolution 338 is aimed at the obstacles on the part of the muslims which states that cease-fire must be effective immediately, in preparation for de-sensitizing the emotions of the entire muslim world that have reached boiling-point
- Arafat has already moved to implement this as was stated by Hamas that Arafat has begun to re-arrest those who he let out of the jails
- Look how the US has engineered such crafty plans against everyone to achieve her interests, and how she flagrantly regards the sacrifice of muslims in order to realize her objectives

- Let us not be surprised in the next few weeks of a 'cooling down' period followed by another attempt to offer negotiations with the jews being forced to accept concessions to the muslims and the muslims
- This was indicated by Clinton's statement at the summit: "Towards this end the leaders have agreed that the US would consult with the parties within the next two weeks about how to move forward"
- My dearest brothers, how is it that the Hizb was able to spot this and the ummah and her sincere sons were not? How was it that the muslims hopelessly failed to realize the horrible and devious conclusions in store for them?
- This ummah just before the destruction of the Khilafah State, and after it have suffered and suffer in terms of their political immaturity
- How was it that the muslims did not think it strange that Arafat one minute is arresting muslims who carried out armed resistance against the State of Israel, and the next minute he is calling for jihad by asking the muslims to fight hand-to-hand combat with metal tanks and helicopter gunships?
- Didn't we find it strange that during the clashes we found the Israelis beating the drums of war and Arafat screaming at the top of his voice for physical struggle, only to find that within a couple of hours both sides have come out of the summit with a complete turnaround?
- Brothers, this would seem odd to any observer
- However, because the ummah suffers a lack of political awareness, and because she is immature in her political thinking, she was not able to link and interpret these events in the correct manner that would expose the corruption of the colonialists, the evil plans of the jews, and the treachery of her rulers whose role it is to protect her
- It rather like this ummah resembles the young innocent girl in Palestine who sits beside the corpse of her murdered father, not knowing the reason for which he was murdered or who the murder was, and asking the murder himself for help
- The ummah must accompany the Hizb in its attempt to make her politically aware of the dangerous plans generated against her and, the sanctity and preservation of her deen
- As for the involvement of the rulers and leaders of the muslim countries in the summit organized and called for by the US, it must be absolutely clear and without a shadow of a doubt that her rulers only exist to betray her, humiliate, and shame her in front of the whole world
- Look at the previous summits that have been organized in Sharm-al-Shaikh in the last decade
- Remember the population control conference that was held at Sharm-al-Shaikh that was called not to rush to the rescue of the muslims wherever they were, but instead to pass a solemn resolution to curb the growth of this potentially powerful ummah
- Look how they took the spotlight away from their corruption in terms of the ummah being blessed with so many resources to feed and sustain us 10 if not 100 times over. Their corruption being the allowing these precious life-sustaining resources being the sole commodity of the western disbelieving powers, and their usurping of the ummah's great god-given wealth and abundant resources
- Look at how the most recent conference was organized in Sharm-al-Shaikh with regards to Palestine
- In amongst the context of Israeli transgression in front of the muslim ummah and in front of the whole world, the leaders called for and participated in a conference not in any way against Israel, but against 'terrorism' which was aimed at those muslims seeking to uproot the artificial Israeli State
- Do not expect the current summit to be in favour of the muslim ummah and the breaking of the traditions of the rulers to work against the muslims
- Dear brothers, do think for one second, or even for the blink of an eye, nor have any atom's weight of confidence in your rulers
- Don't have any hopes that the existing leadership planted throughout the muslim world will ever respond to the command of Allah (swt) to deal with the jews using nothing but terrifying physical military force
- This is because around the mid to late 1900 they all convened in a conference in Dakar regarding international relations, where they declared in front of the whole world unanimously that: "The age of jihad has now become obsolete"
- It should be as clear as the midday Sun that this summit is a summit of surrender and nothing more and nothing less
- Rather it is being conducted in defiance of Allah (swt), and in disregard of the fact the Angels are recording their every move
- Whose sunnah are they following? If I was in control of the ummah's resources, if you were in control of the armies, would you choose the wrath of Allah (swt), or would you launch the armies?
- Look at the guidance of Muhammad (saw) when he dealt with the jews
- Look when the muslim sister at Qaynuqah was teased by the jews and they asked her to take her clothes off. Look how they pinned her jilbaab so when she stood up she would be revealed. When this happened, he muslim nearby responded to her cry and was killed by the jews
- Look at the example of the Prophet (saw) when the news reached him, and how he declared the Islamic State in a state of emergency, launched the army of jihad, surrounded the jews, and within 13 days expelled all of them for there treachery from Medina al Munawwara
- Look how the Prophet (saw) dealt with the jews of Quratha for their siding with the Quraysh in the battle of Khandak, how he fought and killed those responsible for the rebellion
- Look at the Prophet (saw) dealt with the jews of Nadhir, when he (saw) found some of them plotting against the authority of the Islamic State, how he captured those individuals and made them an example by killing them
- Look at the Prophet (saw) how he dealt with the jews of Khaybar, after there treachery in Hudaibiyah, how he conducted a formidable military pre-emptive strike against them
- The muslims in the past hit the jews so hard that most were expelled and fled Medina, and have not returned even to this day
- Dear brothers, look how the Prophet (saw) carried out these actions in his capacity as Head of the Islamic State, with the backing of a State at his disposal, the very State that he worked to establish, and the very State that was destroyed in 1924
- Look at the example of the Khalifah Sultan Abdul Hameed II, the head of the Islamic State, when the Zionist Jew Theodore Hertzl begged him for a part of Palestine as a homeland of the jews and saying Sultan Abdul Hameed to name his price. The

reply of Sultan Abdul Hameed was: "This Khilafah and the land of Palestine does not belong to me. It belongs to the muslim ummah. And if this Khilafah is ever one day destroyed then you can take Palestine without any price"

- Indeed they have done just that!
- Look how futile any attempts of belligerency by the jews was when the muslims had the State to protect them and a Khalifah to guard them
- The land of Palestine is something sacred in Islam
- The land of Palestine and its giving up is a matter of Islam, and Kufr if one gives it up
- Look how we cannot protect our sacred belief in the absence of an Islamic State that would execute such a belief
- Brothers, it is no wonder why your current artificial States are ineffective because the muslims believe in the sacred nature of Palestine, while the States they live under do not
- What good is this discussion, or this awareness if we do not have a State that will practically implement it
- What good is the leaflet from Hizb if there is no State that will express it?
- Dear brothers, your Belief cannot be expressed in the absence of the Khilafah and a Khalifah appointed by muslims at its head who would destroy the artificial entities and borders that currently exist over the muslim world, unify the ummah, and unify and prepare the armies
- It is an obligation from Allah (swt) Himself that the muslims must work as hard as they can in order to re-establish the Khilafah State and to appoint a Khalifah, and if any muslim fails to do so he would incur a great sin and would be directly responsible to Allah (swt) the Almighty
- This is confirmed in the Shari daleel that if the muslim ummah were to remain without a Khalifah for more than a period of 3 days and 2 days, the entire ummah would fall into sin
- The work for Khilafah would be undertaken by anyone who is sincere to his Deen because of his fear of Allah's (swt) severe punishment for neglecting this duty
- While he undertakes this work tirelessly he works with the reassurance that Allah(swt) is going to bring the return of the Khilafah and the might of this great ummah back
- Ibn Asakir quoted Yunis ibn Maysara: "This matter of the Khilafah will be after me in Medina, then Syria, then in Jazeera, then in Iraq, then in Medina, then in Al-Aqsa (Jerusalem), its home country is there"
- The Khilafah has had its capital in a]the aforementioned cities except in Al-Aqsa, which means a glad tidings for this muslim ummah on the right path working to restore the Khilafah
- Imam Ahmed in his Musnad related that Muhammad (saw) said: "A group from my ummah are still knowledgeable about the Truth (Haqq), they are vanquishing their enemy, and those who disagree about the Truth (Haqq) cannot harm them until Allah's (swt) command comes to them. They are thus". The companions asked, "Where are they?". The Prophet replied, "In and around Al-Aqsa (Jerusalem)"
- It is well known from the first part of the hadith that the Hizb adopts in its books ideas from nothing other than the rich and perfect culture of Islam, the Book of Allah (swt) and the Sunnah of His (swt) Messenger (saw)
- It is well known with respect to "they are vanquishing their enemy", that the Hizb stands in front of all the tyrant rulers of the muslim world exposing their treachery to such an extent that these tyrant rulers do not allow the right for their message to be propagated and also deny them the right to exist on the face of this planet. In addition to this it is well known that the Hizb exposes the plans of the disbelieving western States headed by the US
- It is well known with respect to, "They are in around Al-Aqsa (Jerusalem)", that Hizb-ut-Tahrir began in this region
- Indeed, Allah (swt) will establish His (swt) deen and support those working to re-establish the Khilafah State, and this is not difficult for Allah (swt), the Lord of the Heavens and the Earth

Ameen.
