

Gulf Crisis Analysis

The Gulf situation so far - Iraq annexes Kuwait, Saudis call for foreign protection from the crusader forces who duly oblige by marching on Muslim land; Arab summit convenes in Cairo and proclaims a resolution to send troops to defend the Saudis from Egypt, Syria and Morocco followed by troops from : Pakistan ; Bangladesh and Afghan Mujahideen. Did any of the hypocrite leaders involved lift one finger to emancipate al-Quds and Palestine from the Jews ?

To answer this we say, that Rasullulah (SAW) said :

Rasullulah (SAW) in this hadith foretells the situation of the Muslims. Previously invaders such as the Mughals invaded our lands. More recently the main five kufr states - Britain, France, Russia, Germany and the US - have enacted their evil intentions against us. At their head was Britain, who succeeded in demolishing the Ottoman Khilafah, with the collaboration of Al Sabah, Al Saud and "Al Sharif" Hussain bin Ali. After that Britain and France carved up Muslim land into small powerless states in accordance with the Sykes-Picot agreement of 1916. This is how Muslims are now split into 46 different states who have become members of the Kufr UN. There is a continuous conflict between the kufr nations to feed off the corpse of the Muslim ummah. This competition has led to a vicious conflict between Britain and US up until this day.

From the outset of their colonisation Britain drew up a plan to divide the Muslim world into insignificant states. Britain then changed her plan to divide the ummah into two - an Arab world and a Muslim world.

To achieve her plan Britain invited delegates from Egypt, Iraq, Transjordan, the Saudis and the Yemenis to a conference in London in early 1939. Anthony Eden, the then foreign minister, suggested the idea of the establishment of the Arab League. He said, " Britain would like to secure the friendship and cooperation of the Arabs in the event of war. It is natural to consolidate the cultural, political, and economical bonds between the Arab states, and the British government will fully support to any agreement to this plan." Thus, the formation of the Arab League in March 1945 conformed with Britain's plan. The Arab League continues to exist to this day.

In the early 1960's Britain drew up a new political plan for the Muslim world after it succeeded in dividing it into states. The plan is to link the Muslim world into different spheres so that she could always be the first state. Briefly the plan is summarised as follows :

1. the plan to link Morocco Tunisia Algeria and Libya into a united confederacy called the states of North Africa.
2. Plan to make the whole of Egypt and Sudan into a united state called the Nile Valley.
- #. A plan to link the whole of Kuwait Iraq Syria Lebanon and Jordan and Palestine into a united confederacy called the state of the Fertile Crescent.
4. to link the whole of Saudi Arabia with Yemen and the Gulf states into a united confederacy called the state of Arab Peninsular.
5. A plan to make Iran Turkey Pakistan Afghanistan and Indonesia Malaysia independent states.

Gather these ten states conference to solve their problems and to tie them in a spiritual bond and they call it the Muslim World League. Britain used to achieve this plan a number of means,

It has changed the proxy to her from American. and she made them the leader of this conference to these states and encouraged them to set up the Muslim World League which is still here.

She pulled America from Algeria and Morocco and started to make the four North African states closer so the united confederacy could be established.

She worked hard to bring into existence the Fertile Crescent by overthrowing American puppet agents in the Lebanon and Syria of that time.

Aden (Yemen) was given independence America was kicked out of Yemen when America's agent army of Abdel Nasser was kicked out

She worked hard more than once to bring about the unity of the Gulf states to open the way for the unity of the Arab Peninsular.

Except of all Britain attempts did not succeed because America had scuttled her plans and when Britain brought down any regime thru military coups. in Syria for her benefit America followed suit. the same applied in Iraq, which has never left the influence of Britain, until her agent Saddam Hussein came to power in 1978.

The same has been the case with Saudi Arabia where America has had the influence after the assassination of King Faisal until now with Fahad the bastard.

Britain has managed to keep her agents in Libya and she kicked out the Americans from Algeria and Morocco she has stayed in Tunisia Jordan Iraq Kuwait Yemen and the Gulf states being under her dominance.

but America succeeded in taking Iran from Britain since the fall of the Shah until today.

By looking into the following diagram of British and American agents in the region, it would help us understand the Anglo-American conflict in Muslim lands from this we can analyse politically.

There is a saying that says that in order to analyse the present we must go back to the past.

BRITISH AGENT

THE RULER OF each state

Iraq Kuwait Jordan Yemen Algeria Morocco Libya and Tunisia and the Gulf States etc

AMERICA AGENTS

the rulers of these states

Saudi Egypt Syria Lebanon Pakistan Iran Turkey etc

THE APPARENT CONFLICT BETWEEN THE BRITISH AND THE AMERICAN

war between Egypt (Am) Yemen (UK)

war between Libya (UK) and Chad (America thru France) conflict

between Iraq (UK) and Syria (US)

Conflict between Jordan (UK) and Syria (US)

war between Iraq (UK) and Iran (US)

the civil war in Lebanon between the British factions (Maronite Druze etc) against US factions (Syria and several groups) in Lebanon

Gulf crisis between Iraq Jordan and N Africa Yemen (UK) against Saudi Egypt, Turkey Iran Syria and Pakistan (US).

HOW THE ANGLO AMERICAN CONFLICT APPEARS IN THE SO CALLED GULF CRISIS?

To understand the reality of the Anglo-American conflict in the Gulf we must put across a number of facts

1. UK is distinct in two things politically and her ambitions to go back to the first state.
2. UK takes the approach to take the lead as a means of initiating wars like what she did in the 1st and 2nd world wars and others.
3. UK relies on her dominance without any challenger in the Gulf States except the Saudis where the British dominance in the shape of Amir Abdullah and American dominance in Fahad the King.
4. Britain still has an influence in Jordan since she set up the Hashimite family and the rulers of N Africa are still in her hands.
5. UK planned the 1958 coup which brought al-Bakr and Saddam Hussein to power and Hardan Takriti confessed in his memoirs which led to his assassination in Kuwait. This coup was initiated by UK after the American success in toppling Abdur Rahman Arif organising the coup in 1968. The UK aims from the Gulf crisis is summed up into the following points.
 - a) The UK objective since losing Egypt to America in 1952 is to find another leader to take over the reigns of power from the American agent to be the leader in the region. Confined with old plan to UK drew so she can keep her dominance over Muslim lands.
 - b) To control the oil and the global economy which will help her sustain her dominance over Europe and the world at large.

BRITAIN MEANS TO ACHIEVE THESE OBJECTIVES : A SUMMARY

1. full support for her agent Saddam Hussein to the degree of contributing to repeating in her media the similarities between Saddam Hussein and Gamal Abdel Nasser and his Arab nationalism coupled with his hatred of the West. Also that he possesses advanced weaponry and he has distinct religious tendencies, showing him praying. Attacking him in a subtle way and in the distinct UK clever manner so she could rally the Arabs behind him. UK has purposely propagated that Saddam is a threat to Israel and that he will unite the Arabs.....etc.

2. she went on supplying the iraqi army with weapons and helped to manufacture his missiles and propagated this in the media.

3. she has been trying to push america into war against iraq in order to weaken the usa and to mobilise the muslims and arabs against her. she has raised the public opinion . in support of the point of view saying that uk is pushing the usa to war the following facts are:

a) the timing of the iraqi foreign minister visit to jordan with visit of the defence minister of uk.

b) the press conference between bush and thatcher during her visit to the usa shows conclusively that she is pushing him for war.

c) Pointing out to her agents to make an effort which have useless results like king hussein and king hassan and colonel qaddafi and president benjedid . so that the only solution would be war.

d) to incite the kuwaitis and al sabah to resist the iraqi annexation of kuwait.

e) to promote the kuwaiti public to the necessity of war and the revenge of saddam.

f) It was made known to uk citizens in the gulf states to leave before the 15/1/91 this shows uk eagerness for war.

g) uk has asked her agent the so called amnesty international in releasing a report showing the barbarism of the iraqi forces in kuwait. So this would stimulate the necessity for war . to stop the human rights abuses by publishing these reports and papers in the media.

h) The damning statement which calls for force by the uk prime and foreign ministers respectively. in addition to this the defence minister stated that his forces were ready .

i) to the information that Half the british personnel in the gulf is administrative and the other half are forces for the gulf states.

j) the uk units have been put on constant high alert in saudi arabia this shows their keenness for war.

The US Objectives in the Gulf

a) To destroy the danger coming from Islam by diminishing the awareness and weakening the military forces in the region which could serve Islam in the future, be it Iraqi, Iranian or Egyptian forces.

b) Dominating the key for the oil to control the global economy and this will help to dominate the economy of the large industrial countries which compete with her like Britain, Germany and Japan and others.

c) Her intention to lead the world that's done through the direct dominance of political, economic, and military control.

politically through direct dominance and authority over the UN. and UN Security Council, using the pretext of keeping the international law and international interests. This requires weakening the other world states in general and in particular Russia and Europe. Economically, done in a way to control the oil and the wealth of the Gulf States and flooding their western banks. Militarily by building a massive developed army to give it the rank of the first world state, which has the ability to intervene quickly in solving any dispute in the world. But this army needs a high cost training so she is training 500,000 soldiers in Saudi Arabia by using muslim money. In summary the Gulf is a fat milky cow for America, and she is trying to use it to stay as long as she can in the region with no war, to meet its objectives.

The American Means to Achieve these Aims

1. To be quick in deploying her forces in order to dominate this 'milky cow' with no waste of time.

2. Bribing the Egyptian regime by detracting part of their accumulating debts, which are the iron chains around Egypt.

3. Delaying the initiation of war so that they can waste time which enables further exploitation of the 'milky cow'.

4. Their open persistence in freeing Kuwait and restoring Al-Sabah, using the pretext of helping the weak against the strong. And defending the Saudi and other States in the region. This is just a cover for her real objective and she is trying to tickle the emotion of the people of the region on top of Saudis and the people of Kuwait. So she could stay in the region with no feeling of colonisation and occupation.

5. Proclamation to Gulf States she wouldn't go out of the Gulf until she put a security plan to keep the stability defend the weak from the aggression of the strong. To give a secure future for her fat milky cow in the region.

6. Confuse her agents like Mubarak, Fahd, Ozal by proclaiming she is going to destroy the Iraqi regime in a period of three months at least, and she announced that she will be ready in mid January 1991 and then announcing a project of visits between the USA and Iraq. And then came those responsible for the forces in the Gulf with the announcement that their forces would not be ready until March 1991 and they need more time. Then came the question of releasing the spy satellite on Iraq and she will destroy before they use chemical weapons and she claimed that she had advanced equipment in her released satellite which would detect any communication done by the Iraqi forces, and other time wasting measures.

AMERICAN FEAR FROM FAILING TO ACHIEVE HER OBJECTIVE SUMMARISED IN THE FOLLOWING POINTS

1. The fear of having agreement between the English agents in the region like the Kings and presidents of Iraq, Algeria, Libya, Yemen, Jordan, and Tunisia combined with the international consensus from the United Nations stating that if Iraq starts to pull out gradually from Kuwait simultaneously with a gradual pull-out of American forces from the region under the supervision of Arabic forces. This will turn the world upside down on America and she will appear if she refuses with a greedy appearance in the muslim lands which might turn to the equation to Iraqi benefit to the other regimes and other nations following her like Egypt, Saudi, Iran and Turkey.
2. The fear that Israel might initiate an attack on Iraq which will cause great confusion. From this we see America trying as hard as possible to distance Israel from the events in the Gulf and promising her with financial help and protection.
3. Fear from Iraq to strike suddenly her forces which would result in a response loses the factor of wasting time which she is trying to use.
4. The fear that the regime will change and that one of the States which she has a grip on like Turkey, Iran, Syria, Egypt and Saudi and all the political signs show that Al-Saud will be toppled. We cannot keep this far from our mind that America can do the job herself by toppling Al-Saud and secretly supporting one of her men from the region appearing to have iman and Taqwa and change the name of Saudi to the State of Hijaz, requesting America to pull out immediately, thereby becoming a hero. In any event America will use any movement or conventions which will happen in the region to her benefit, even the withdrawal of Iraq partially, she would use to her benefit, by cooling the situation rather than solving it. So America will stay for a longer time to achieve her objective with no impediment.

ISRAELI STANCE

Israel will be annoyed if there is no war, she wants the muslims to destroy each other, and wants America to destroy the muslims. And for this she works hard to initiate war and she might use Britain and push her to this particularly. Since she is trying to raise public opinion against her occupation of Palestine and her atrocities against the Palestinian people. And British officials suggested the solution of solving the Palestinian problem more than once, and all this will lead to Israeli madness and fury because of her objective of expansion she always says 'revenge for Khyber' and what Moshe Dyan said "The way for us to Yathrib (Madina) becomes open".

WHAT'S THE SOLUTION

To know the solution we need to know what is the reality of the problem is. The fundamental started when the Khilafah was destroyed in 1924. From here began the cancer, the kafir collaborated in the envious, crusading way, with the body of the ummah until it had its victory in ruling muslims with kufr systems. This resulted in muslim land becoming more than forty different states, when they used to be one state. The kufr system continued controlling our land and this has arisen many side problems created in the ummah without removing the cancer. The problem appeared in Palestine, Lebanon, Afghanistan, Iraq and Iran, and what is so-called today the Gulf crisis. Which is one of the new crusaders campaign, and greater things can happen as long as we are not working to solve the fundamental problem.

Therefore establishing the Khilafah and to rule with Islam again with what Allah (SWT) has revealed is crucial, a life and death matter, and fundamental. It is not allowed to sit down and not be working for this cause. This is done by destroying the kufr systems which are ruling our countries. There is no difference between Iraqi Baath and Syrian, Saudi, Egyptian, Iranian, Turkish, Pakistani, and other regimes. To replace it with one Islamic system, the Khilafah system, where there is no difference between the Hijazi muslim, Persian muslim, kurdish muslim and Arab muslim. So if we solve the prime issue we will solve the side issues, that's why we cannot conceive that with the Khilafah Palestine would be in the hands of the Jews and Hijaz in the security of the crusaders. And the kafir could establish Allah's hudood on the aggression of the Iraqi army against the muslims in Kuwait. And we cannot conceive that we have these states and artificial borders between muslims when they have one state. It is compulsory (fard) upon us to commit to the following:

1. That the muslim ummah is an ummah that is slave only to Allah (SWT), no one controlled her with man-made and individual or international law. Therefore muslims do not care about any resolutions of the united kufr states like the United Nations, or the Security council, or Amnesty International, or the Arab League. Therefore the ummah should not as an ummah or as individual muslims, should not disobey Allah's text or the sunnah of His messenger.
2. When the time passes on something that is haram it doesn't mean it becomes halal. Halal is halal until the day of judgement and haram is haram until the day of judgement. If we are stopped from something halal it doesn't mean that it becomes haram, because the halal is halal until the day of judgement.
3. The Islamic creed dictates that the muslim has loyalty to Allah (SWT) and His messenger not to a piece of land called Palestine or Kuwait. But as muslim lands Allah (SWT) required us to defend it obeying his order. If it is not so we don't take sickening shallow thought, patriotism, nationalism, socialism, baathism, and secularism which they are completely diverting and controlling our loyalty with. And Allah's punishment will be upon us soon, and Allah says:

“If your fathers and Al TAuba) 24

4. The Islamic ummah is one ummah and it was one ummah under the banner of one Khalifah in one land. Therefore what the colonialist put from borders does not in any way mean even is the time has passed on it that muslim land should be divided into a number of states. And this matter Allah forbids, and he commands us to work to unite muslim lands and he allowed us to use force to unite into one state, whether the Khalifah exists or not.
5. The aggression on any land of muslim land from any kufr state either was America or Britain or Russia or others makes it fard on muslims to fight them to repel the aggression. So if somebody establishes it then the others are relieved of the duty (fard kefaya) but if we didn't repel the aggression it becomes fard upon all of us.
6. Regarding the fatawa of the scholars which they stamped with their working for these kufr systems in muslim lands. Their fatawas are just a mere decree from the King, or a constitutional decree. And the Islam mentioned is this is just cosmetic. And the mufti which justifies the Islamic shari'a texts in a way to support the King or presidents resolution he will be nominated to the prize of King Faisal and other prizes like moral or material prizes. And to those sheikh who say fear Allah (SWT) and ponder on what Allah says “don't lean to those aggressors so fire will touch you”.

But their fatawa are full of ahadith and ayat which have no relation to the situation which we face, so we cannot understand that a hokm that we adjudge the adulterer by cutting his hand when Islam calls for us to lash him or stone him. Allah (SWT) says: “Thief and the female thief cut their hands”

The ayah is correct and clear but does not apply to this situation, even if we repeat it many times.

7. To seek the help of a kufr state is completely haram from the Islamic texts.
8. To boycott muslims is forbidden in Islam, therefore it is forbidden to adhere to United Nations resolutions which states the boycott of muslims in Iraq is haram. And the adherence of the kufr regimes on top of the list (Saudi and Iran) is another clear evidence to their commitment to man-made resolutions other than commitment to Allah (SWT) the Creator of man's orders.
9. Some may say Iraq is the transgressor because she killed muslims in Kuwait. The answer for that is that the rule for it is to reconcile between them, and this is done by the Khalifah of the muslims, and if one of them transgresses on the other then the Khalifah will fight them after writing to them. Fighting not to kill, but fighting to punish, the transgressor. If there is not Khalifah, Ulema and the general muslims should reconcile between them, but there is no way that the hudood can be established except by the Khalifah of the muslims. So how can we conceive of America to come to muslim lands to establish the hudood of the transgressor !!
10. The aggression on the private property and the souls in Kuwait from the Iraqi army, this is not allowed by any means.
11. What happened by joining Kuwait to Iraq from killing between muslims is like the fighting of fitnah, which it is not allowed to kill each other by any means.
12. The call for the withdrawal of Iraq from Kuwait after the merger is batil (invalid) and Islam forbids us from dividing muslim land.
13. Destroying kufr systems in muslim land including the Iraqi regime to establish the Khilafah is fard upon the muslims not kafir.
14. Finally, we said the radical solution to this problem and to other Islamic issues can be achieved if the rulers of muslim countries sincerely and truthfully try to work in accordance to the following points:

- a. To deny completely their relationship or loyalty to kufr states like America, Britain, Russia and others.
- b. Rejecting all UN resolutions by withdrawing their membership from it immediately.
- c. Uniting their states in one entity and their armies into one army with one leader and one military plan for these armies. To march against the Crusaders and the Israeli forces existing in most of the muslim lands.
- d. Requesting the ummah to elect what she pleases as Khalifah, and gives him leadership to rule on the basis of the book and sunnah to implement the system of Khilafah inside, and to carry Islam as a message to the whole world.

If they do this and repent to Allah (SWT) for what they did to this ummah, they will gain a good deed to rub out their bad deeds. If they didn't do that Allah (SWT) and the ummah's curse will upon them until the day of judgement.

If America starts the war, may Allah (SWT) forbid and if the leaders retreat as per usual it is a must upon us to fight America and the Crusader's army, and whoever stands beside them, not defending muslims and in adhering to Allahs order and we will continue working for our duty which is destroying the kufr systems including Saddam's system, and replacing them with the Khilafah system.
