

## Circle: The faces change but the corruption remains

- ◆ Moammar Qadhafi recently told reporters in Tripoli that he believes US President-elect George W. Bush "will be nice... and does not have world ambitions."
- ◆ What Qadhafi fails to realise is that Clinton's departure from the Whitehouse hasn't changed the situation at all rather his successor, Bush continues in his blood soaked footsteps.
- ◆ The faces may have changed but the Capitalist system remains. Capitalism is to blame for colonialism and the atrocities committed by America acting as a global policeman.
- ◆ Eisenhower, one of the previous American presidents said, *"To meet the challenge of our time, destiny has laid upon our country the responsibility of the free world's leadership."* Clearly showing that the US as the leading nation will use this to secure her own interests.
- ◆ Indeed we can see that the Middle East has been a battlefield for the major powers of the world after the demise of the Islamic Khilafah. The Gulf War highlighted the hypocrisy of the international community and America in particular as claiming, on one hand to be the guardians of liberty and freedom, on the other hand they make it clear that they are looking out for their own benefit.
- ◆ The US don't wish to conceal this fact, when we look to their statements concerning the Gulf War for example, the current President's father George Bush justified the use of force against the Iraqi people by stating, *"Our jobs, our way of life, our own freedom and the freedom of friendly countries around the world would all suffer if control the control of the greatest oil reserves fell into the hands of Saddam"*. [The Politics of Anti Terrorism].
- ◆ They are as Allah (swt) says: ***"And they will never cease fighting you until they turn you back from your Deen"*** [2:217]
- ◆ There is no difference between Barak and Sharon, or Clinton and Bush. Bush "the first" had slaughtered the people of Iraq, the children of Iraq are dying from Uranium. The Americans threw Uranium even in the Balkans. The weapons of the U.S. are destroying the human being, yet the U.S. still claim to be the protector of human rights in the world.
- ◆ Oh Muslims, The enemies of Islam may differ in tactics, but their strategies are all the same. They want to destroy the creed in this Ummah in order to eradicate the effect of Islam in the world, in order to exploit her natural resource and to take al-Aqsa Mosque.
- ◆ Do you think that Bush, the new U.S. president will ask the Jews to give up al-Aqsa mosque to the Muslims? Do you think the son of the murderer of the Iraqi children and women will be better than his father? He is threatening to tighten the siege around Iraq.
- ◆ America and the Western nations continue in their campaign of colonisation and their campaign to suppress Islam.
- ◆ We must realise that the changing of faces does not bring a change, this has been witnessed in the Muslim countries with their various leaders and rulers, democratically and non-democratically elected alike – non of them have changed the situation in the Muslim world because it is the system that is at fault.
- ◆ The Khilafah will bring true change to the Muslim world and the world at large, it will illuminate the world and rid it of the darkness of Capitalism.

### Among other things, Qadhafi says Bush 'will be nice'

Moammar Qadhafi recently told reporters in Tripoli that he believes US President-elect George W. Bush "will be nice... and does not have world ambitions." He warned against the implications of globalization and new "transmitted viruses." Qadhafi regretted the recent attacks against African nationals in Libya, which he said were carried out by "dirty hands." Elsewhere in his interview he made remarks about a number of topical issues including the current Middle East peace talks in Washington, the future of Jerusalem, pan-African and pan-Arab issues and his bid to bring about African unity. The following is the first of a two part series from the interview, broadcast live by Libyan television on January 4.

I have tried to find time to put forward some of my views on the occasion of the new millennium. Happy new year to the entire world. This marks the 2000th year since the birth of Jesus Christ... The world map has been shaped by World War I and World War II, as well as by the invasions of Alexander the Great and Napoleon before that.

Now the world map is different. From the 18th and 19th century, there has been a new map which is not that of empires or kingdoms but it is the map of the nation states...

What is the fate of the states, which are not part of today's blocs? I can identify them. Where is Iran going to be? There is a question mark about the future of Iran. There is a question mark about the future of Iraq, the Gulf states, Syria, Jordan, Lebanon etc....

It was for this reason that I visited Arab states, which are outside Africa – states which form a third of the Arabs because two-thirds are in Africa - asking them and advising them to join the African bloc.

#### **ABOLISH CONVENTIONAL ARMIES**

From now on we must be careful about the Barcelona process. This is very serious because it is based on a scenario presented by a number of strategists. They say there are states with no future, so we must link them to Europe, to Israel and to the Mediterranean.

Why do they want to link them to these blocs? For their own interests. So that they will exploit these states and make them markets for their products and [military] bases. Because these states have no value. A nation state will never be able to defend itself on its own...

The other means of defense is armed people and not [conventional] armies. Armies must be abolished because they have no future. Their case is like that of the nation state. They are burdens on societies, which are facing economic crises. Today, these armies are a burden and they are among the things, which would destroy the nation state.

Today African states are being destroyed by their armies, which have become a burden on them. Latin American states are being destroyed by their armies because their armies have become a burden on these societies. The same thing applies to Asia.

Europe wants to do away with national armies and set up a Euro-Force. This European army, which will help all the European states inside the European Union, was created with the minimum cost. Now they have set up a 60,000-strong army as a unified European force. Every European state has an army, which exceeds this number. But together they set up an army of 60,000 soldiers, which they say is enough to face any crisis.

If somebody fires a missile at you, fire a missile back at him. If somebody invades your soil he will be faced by armed people, not with a tank or mortar, just a rifle, a bomb, a gun and small weapons are enough.

But the whole people must be trained and able to fight. Conventional national armies must be abolished as they have no meaning and no role to play...

What is annoying is that this prophecy is not good, but it will inevitably come. The prophecy is that the coming years will be horrible. The world might fall into total chaos, which will be difficult to control.

I hope this does not happen. Officials at the United Nations and all countries of the world must be aware of this. This is a grave danger. The Green Book says that after the era of democracies and jahahiriya's we will enter the era of chaos. The prophecy of the Green Book will come true, no doubt...

#### **US IMPERIALISM, NEW ERA**

This is due to science and the fear of globalization. Science has created globalization, which, in turn, created this climate, which forced peoples to rally in groupings because they could not survive on their own.

America wants to impose its imperialism on the world, because the world, in America's view, is made of national entities. America is capable of agreeing with the leaders to have their countries handed over to it.

How many traitors, Arabs and non-Arabs, in Asia, Africa, Europe and Latin America and elsewhere, have handed over their countries to imperialism?

These are hireling governments, mercenary governments of cowed countries. They see their armies destroyed, their economies weakened, they come under the pressure of the WTO, the World Bank and the International Monetary Fund. Resolutions can be imposed on them by the Security Council according to Article 7 of the UN [Charter] to bring the national state to a state of submission for the American imperialist policy to spread in the world.

This will not continue, because the era of anarchy, which is in the offing, will be beyond American domination. Neither the World Bank, nor the International Monetary Fund, the Security Council, Article 7 or NATO will be able to deal with forthcoming anarchy.

There will be an international rebellion that no one can control.

### **REBELLION WILL START FROM WITHIN AMERICA.**

The dollar, American companies and American minorities will start rebellion. Who will America be able to face up to? It will not be able to do that.

Now there is a new development. Peoples who feel they are being deceived, who are angry and who in the face of injustice are against the West in general, without any differentiation between Europe and America...

This will lead to a series of explosions, which will be difficult to control. There will not be countries like Libya to impose an air embargo on, or countries like Yugoslavia, Korea, Iraq or Sudan to impose a blockade against.

All this is very easy. When a western power deals with one country, it is easy for it to have a Security Council resolution, based on Article 7, issued to impose sanctions against that country which will be forced to pay the price in a state of humiliation.

In future, confrontation will not be with national states but with unconventional and unidentified forces. It will be with unidentified individuals who will be forging the dollar.

This job will be done so well that machines will not detect the forgery, with the consequence of the collapse of America.

If we start dealing with trillions of forged dollars, what would be the state of the world? It will collapse.

The euro may be forged. By who? By rebel scientists, by anarchists, by people who are angry against Europe and the United States of America...

You cannot scorn Arabs and say they breed camels and come from the desert and just release the Israelis on them to discipline them – and Israel is enough as it sorts them out and terrorizes them - and we get their oil.

You cannot scorn Arabs as one Arab can destroy Israel with a virus or an electron.

These predictions are not imaginary, they are real facts and scientific data, which exist now.

Before destruction takes place I say that the world must mark a pause and convene an awareness session so as to end injustice quickly.

How come oil is not sold at its fair price and the price of a pair of jeans must increase and must not have a ceiling?...

How come there is a veto on oil and there is none on all the manufactured goods which we buy from oil revenues? This is an injustice and oil producers will learn tomorrow and will destroy expensive goods.

### **THE NEW WARS**

Yesterday 120 US companies were shut down; they were declared bankrupt. These companies were Internet companies. Do not be over delighted with the great progress you have made; it is coming to an end.

What will happen after that? We will restore our [trade] balance and be self-sufficient once more. We will no longer need each other – every one of us will be able to produce his own cars, aircraft, transistors, clothes, building materials and electricity. There will no longer be a need for markets - markets and free trade will come to an end. The World Trade Organization will lose its role...

Let us now deal with the UN. It is inevitable that the powers of the UN Security Council will be transferred to the UN General Assembly one day.

Failing to do this, unfairness in the world will grow. Its growth will create problems leading to revolutions in which sophisticated and uncontrollable weapons will be used. The Security Council itself will be destroyed by transmitted viruses and electrons sent by those who have been unfairly treated.

American aircraft, cruise missiles and even nuclear bombs will not be enough. There will be something else that is very, very small and can only be seen by the microscope: the biological virus, also known as the electronic virus.

American aircraft carriers and missiles will not be able to fight off these new things. Viruses today are much more powerful than cruise [missiles].

What I want to say here is that imperialist forces believe that they have the upper hand over us, that they can get away with their contempt for us, that they can tell us what to do like ordering us to reduce our oil, cocoa, cola and cotton prices, and that they can tell us that we must, whether we like or not, accept their will.

Otherwise they will torture us, look down on us, put up prices of their products, order the IMF to refrain from furnishing us with its facilities.

We would like to tell them here: Your policies will backfire; your very weapons will backfire. You must show us respect; you must see us as equal peers and that we need each other.

A balance between us must be created. Justice must be restored.

The veto is a sham measure, which must come to an end, otherwise there will be a rebellion. The rebellion has already started.

The siege against Libya ended thanks to a rebellion by African nations; by peoples everywhere; by the rebellion of Arab peoples. When America was planning to strike against the Al Rabitah pharmaceutical plant, like the plant, which it hit in Khartoum, Arab peoples revolted – Arab pharmacists and doctors came from everywhere and staged a sit-in inside the plant. That was enough. They said if America was to hit this plant let it do so without hitting Arab pharmacists and doctors.

#### **THE NEW US ADMINISTRATION**

In general the USA is the USA, which is an imperialist state. Imperialist circles do not change by elections and they still exist. It is possible for presidents to change.

The worst, aggressive and most stupid president who ended up mad was [Ronald] Reagan. After him came [George W.] Bush, who was a moderate man.

Clinton was a good man, and he was busy with his private life.

I believe George W. Bush will be nice. As a person he is not malicious or imperialist. I believe he attaches importance to the USA and he does not have world ambitions.

Imperialist circles, however, still exist and will put pressure on him. This is particularly true with Zionism. I expect the situation to be better particularly if he learnt his lessons and benefited from these wars, interventions and losses from Vietnam to Libya, Iraq and Yugoslavia.

(In part two next week, Qadhafi speaks on the Mideast Palestinian problem, inter-Arab relations, racial violence in Libya and the future of Jerusalem.)

### **Stop the treason**

*In the name of Allah, Most Gracious, Most Merciful.*

I witness that there is no god but Allah and that Muhammad is His messenger.

***“O ye who believe! Fear Allah, and let every soul look to what (provision) he has sent forth for the morrow. Yea, fear Allah: for Allah is well acquainted with (all) that ye do”*** al-Hashr (59:18).

Oh Muslims,

Where the so-called peace process, in the Middle East, is going?

Clinton had gone. Is the new comer to the white house will be more wise than him? Many had greeted Barak when he came after Netanyahu, they shouted: Peace had come. They thought that he would end the conflict. But what did Barak do to us? The bloodshed that he is committing is still going up until this moment. The martyrs are falling. The Jews are planning the worst towards al-Aqsa Mosque.

There is no difference between Barak and Sharon, or Clinton and Bush. Bush “the first” had slaughtered the people of Iraq, the children of Iraq are dying from Uranium. The Americans threw Uranium even in the Balkans. The weapons of the U.S. are destroying the human being, yet the U.S. still claim to be the protector of human rights in the world.

Oh Muslims,

The enemies of Islam may differ in tactics, but their strategies are all the same. They want to destroy the creed in this Ummah in order to eradicate the effect of Islam in the world, in order to exploit her natural resource and to take al-Aqsa Mosque.

Do you think that Bush, the new U.S. president will ask the Jews to give up al-Aqsa mosque to the Muslims?

Do you think the son of the murderer of the Iraqi children and women will be better than his father? He is threatening to tighten the siege around Iraq.

Yesterday I heard the Palestinian information minister on the TV commenting on the possibility that Sharon may win the Israeli elections, he said "If Sharon wins then this is the best prescription to the coming war in the Middle East". Does this man mean that Barak was or will be the best medicine? I am asking this information minister: "What is the difference between Sharon and Barak, or Netanyahu, or Begin, or Shameer, or Ben Gurion? They are all enemies to us.

Allah says in his noble Quran "***Never will the Jews or the Christians be satisfied with thee unless thou follow their form of religion. Say: 'The Guidance of Allah, that is the (only) Guidance,' wert thou to follow their desires after the knowledge which hath reached thee, then wouldst thou find neither Protector nor Helper against Allah.***" Al-Baqara (2:120).

Barak tried to improve his image through his appearance in aljazeera satellite channel in a private interview targetting arabs everywhere but this jewish leader insisted on the main issues and he was not successful in his dodge.

Look how the so-called representatives of the people of Palestine are negotiating with the Jews while they, the Jews, are killing people. They are racing to end the case of Palestine.

I am calling upon all the so-called representatives of Palestine to take their hands off al-Aqsa Mosque. I am calling them to stop this treason. If they are unable to fight the Jews then let them stand aside because the new comers are willing to destroy the jewish entity.

The new comers under the Khalifah, insha'Allah, will destroy the rule of the disbelievers.

I want to remind the Friday speaker that not only Jerusalem is the graveyard of the occupiers but also the rest of Palestine including what they call, the historical Palestine, which was occupied in 1948. The companions of prophet Muhammad opened the whole of Palestine so the blessings of this land are not confined to Jerusalem.
